

Cake Doughnut Feeder

Series SBA

Automatic Feeding of different types of Cake Doughnuts like

- French Cake
- Plain Ring Doughnuts
- Apple Rings
- Quark Balls

Size and Shape of the Cake can be changed easily by changing the product plunger of the Dispenser.

Construction and Operating

The Cake Doughnut Feeder is a separate mobile unit which high level is adjustable. It is made out of stainless steel. It can be easily docked and fixed to the continuous doughnut fryer line. The feeder is equipped with a Cake Doughnut Dispenser which can be filled with 9l dough. The feeder is controlled by the continuous doughnut fryer and moves along the first row of the line to insert the dough pieces into the fat.
